
IN THE REALM OF WOMAN

BY PENELOPE

Mrs. Robinson, wife of Dean Robinson, St. Andrew's parish, is giving a banquet due in the month of April. An interesting feature of the banquet is the presentation of a number of bouquets. It is well known that in the old country no lady is ever held without this token of make it popular, with the result that there is usually individuality and a certain grace which creates general interest, therefore easily creating a social unity. It is hoped that Mrs. Robinson will give such bouquets to her guests and even places in her good work.

Mrs. and Mrs. Driscoll with their family and a nurse, left for California this morning in a private car, and Mrs. Ferns accompanying them.

Mrs. Robert May, entertainers at St. Valentine's tea today at the King Edward.

Mrs. O'Leary (Albert) was in the city in the beginning of the week, the guest of Mrs. Hilop.

The Edmonton "graduates" were making great records in the separate school last night.

Mrs. Frank and Mrs. M. J. Smith were in the city in the beginning of the week, the guest of Mrs. Hilop.

Mrs. Hagar, 236 Third street, will receive on Thursday, and thereafter on the third Thursday of each month.

JOHN HOWEY C. F. HAYES
Managing Editor Business Manager

WEDNESDAY, FEBRUARY 14, 1912

According to the latest report from Le Pas no supplies have yet been taken in for next season's construction work on the Hudson Bay railway.

The Saskatchewan Capital says the prices the farmer gets for his products are increasing in proportion to the increase in the cost of living. "What about the farmer who can get no price at all for his wheat, though the price of flour has advanced?"

The Red Deer News holds that Mr. Gordon would not be warrented in making use of the management of the natural resources to the Provincial Government until the people of the Province declare their desire that such action be done. The expense-bill seems to be getting empty.

Perhaps if the member for Rocky Mountain had another deliverance he could be persuaded to hold himself in until the House has pronounced and the members who think they ought to do the business of the public and then go home and attend their own business have dispersed. The legislative chamber will not be in use during the session and there could be no objection to Mr. O'Brien spending the summer talking to himself in the cool recesses of the statute book. His audience would hardly be smaller and if it were smaller it would only mean that fewer people would have auricular evidence of his peculiar delusions.

Mr. Sanford Evans, of Winnipeg, is spoken of as a probable member of the editorial staff of the Winnipeg Telegram. As a director of a high tariff newspaper in a country where high tariff means higher prices for what has to be bought and lower prices for what has to be sold he doubtless required some facility in finding pretexts for beating down prices and explanations wherewith to quell the rising wrath of the victims. This being the business of the tariff commission, Mr. Evans should make a good man for the place.

Mr. Borden's newspaper friends have decided that the western farmers are not to go without compensation for the injury done in forbidding them the privilege of selling their wheat in the United States. Instead of the market they are to be given—advice. From the Montreal Gazette down to the Toronto World these newspapers are now daily attacking the western farmer that his troubles are the result of his own negligence, and that the only remedy is to be expected from him. He must build barns and granaries if he does not want his wheat buried in the snow—so runs the alumnitude. It is useless to reply that what the farmer needs is not advice but the permission to ship wheat duty free into the United States. Even with this waiving the advice the papers in question make plain enough that the farmer need not look for the removal of the duty against his wheat as the result of efforts of the Borden Government. The conditions which exist are such that the farmer will exist next year and in the year following unless the farmer builds barns and granaries in which to store his grain—such is the declaration of those who profess to represent that the Government has decided not to propose to do that.

THE MUNICIPAL CAMPAIGN.
There have been no large issues involved in the efforts of the municipal campaign. The records of the two councils of last year have not been the fighting ground of any general war, but could not well or profitably be made so. Nor have candidates come forward with new and distinctive proposals of outstanding consequences. As a result, the choice before the electors is one of persons rather than of "platforms" of men rather than of proposed measures. The candidates who have a large circle of active personal friends, and the one who is widely known for business capacity, have the most chances of election are best. It is not always well that the outcome of an election should be decided by the personal popularity of the candidates, or even by the reputation of the rival candidates for general business ability. The man with a "lobby" is sometimes a useful factor in the election council. Under the existing circumstances however it may be best that the decision should be upon the grounds of general qualifications rather than upon that of championship or opposition to any distinctive proposal or scheme.

The council to be chosen is the first of Greater Edmonton. Conditions under which the aldermen are to work are altogether new conditions. A very large part of their business—perhaps the most important—will be to consolidate and make real the nominal union of the two cities brought about by act of the Legislature. They will have to take on new duties, to shift the aldermanic viewpoint to suit the larger field of responsibility, to ally prejudicial and disorganizing suspicion by dealing out even-handed justice to the people of both communities. To accomplish this end, and to carry out the immense construction program with proper speed and economy, we shall require at the council board men of good business capacity rather than men whose inclinations run altogether to the advocacy of some "reform" scheme—perhaps good enough in itself, but not of imperative necessity. The absence of issues, by concentrating attention upon the qualifications of the individual candidates should result in the election of men of business capacity. It is to be expected that of a disposition to make the two communities one in aim and feeling as they are now one in name and responsibility.

A TRIBUTE TO LATE BISHOP HOLMES

The announcement of the death of His Lordship Bishop Holmes, made yesterday, has been met with a feeling of sadness in the city. The bishop, who was born in England, brought sorrow to many who had known and loved him in Alberta. It was known that the bishop had not been in really good health for some time, but there was no apparent cause to anticipate anything of a serious character. The bishop had spent the past eight months he had travelled extensively. Leaving Lester Lake, his headquarters, in June, he proceeded down the Peace River by Fox Vein, then to the Athabasca, and thence to the Slave and Mackenzie rivers to the Arctic Circle. Journeying back by the Athabasca, he arrived in the Landing August 24th, having visited in his official capacity all the churches of the diocese of the north. Two days later he left for Eastern Canada where he spent the next three months, preaching and speaking in the diocese east of Winnipeg. He sailed for the old country in returning time, to visit his wife and then to arrive at Lester Lake last winter. Holmes prevented the accomplishment of his mission in the north by his illness on 24th January. The bishop died in London on February 10th. Mrs. Holmes who had awaited his return from the lower diocese of the north, but could not have been further on the voyage than two days when the bishop succumbed to the disease. The deepest sympathy will be felt for the loss of the bishop. The two older daughters, who went to the Landing in August with Mrs. Holmes, will be remembered, are now in the lower diocese of the north, and by the extensive work of the Peace. There will be no more news of him.

The bishop's connection with the diocese of the north was a long one. He was founded and successfully built the Indian boarding school at St. Peter's Mission. He was ordained deacon by this diocese in 1877 at St. George's Mission, Vancouver, and Priest in the following year at St. George's Mission, Vancouver. In 1881 Bishop Young appointed him to the Archdeaconry of the diocese, an office which he relinquished at his consecration as Bishop of the diocese of Monrovia in 1903. Three years ago he was welcomed back to this diocese as its Episcopal head, with partial revocation of Macleod river.

The honor of Almighty God, the extension of the kingdom of the Divine Love, and the highest spiritual and moral welfare of his fellow-men, these constituted his insatiable ambition.

The beginning of a great change, the coming of a new population, and the desire of enlarging opportunities for the attainment of this unity, he was permitted to behold and so he rejoiced.

He is called to a yet higher and nobler service in the eternal presence of the Lord he loved.

All who knew him realize their loss and grieve for him.

Amongst the names which will be remembered in the roll of honor of the Northland will be recorded in the characters that of George Holmes, Bishop.

AN INSINUATION OF GRAFT MADE

(Continued from Page 1)

Major Armstrong introduced and spent his twenty-minute address by thanking Mayor Saunders for the privilege of speaking at this meeting. The city's chief executive went over some of the ground covered in previous political talks. He devoted most of his time to a review of the water situation. What is needed now is a greater pumping capacity, and the city will have to increase it. The city will purchase land for the purpose.

Major Armstrong argued that the municipality had a sufficient number of engineers and experts in its employ. They can handle the work admirably, he said, and it was unnecessary to elect Mayor Saunders because he was an engineer. The mayor said that if the Hudson Bay Company land within the city limits had been given to the city, it would have been vastly better for the city's improvement.

In conclusion he expressed the hope that the voters would not hold him responsible for the discrepancies of the last session. He was not to be taken too far, but on the other hand, had done what he could under the circumstances.

Major Saunders Address.

Major Saunders began his address at 10:15, and notwithstanding the late hour, he attracted the close attention of the large audience present. Regarding the circular letter from the Trades and Labor Council, he said that he was in accord with the objects set forth, especially with reference to patronizing home industry.

Edmonton was prepared to keep abreast of those progressive times, the mayor observed, and he believed that municipal ownership of public works would materially assist in building a great city. Amalgamation was a step in the right direction and he would not be backward in supporting it.

Major Saunders said the methods used at the power house were primitive and more expensive than they should be. While evidently not the fault of the employees, some one was to blame.

"And the water," continued the mayor, "is the responsibility for the unpleasant condition of affairs. Mayor Armstrong was alderman in 1895 and 1896, and he should have seen the way matters were drifting. This is because he knew and thought he would wait until he became mayor, and then claim all the credit and deny the blame."

Mr. Sandy resigned and that before election.

"I am obliged, therefore, to record in the minds of my constituents at the candidates of Messrs. H. A. (the architect) and Hamilton MacDonald for membership in the new council. If these gentlemen had had their way, there would have been no amalgamation; they opposed it with arguments, and when it was decided with mere unbecoming subtleties. I said that we are grateful for taking the side they did, but that they should be indicted for the same."

I desire to urge upon the South side voters to sincerely support the amalgamation. I am sure that the council will not be so easily deceived. I am sure that the council will not be so easily deceived. I am sure that the council will not be so easily deceived.

IF I HAD ECZEMA

I'd simply wash it away with that soothing liquid, D.D.D. Prescription. The very first drop I rubbed on that awful itch. We have said much about it in the past, but we don't want to say it again. We don't want to say it again. We don't want to say it again.

Let your druggist send you one of our D.D.D. bottles. Geo. H. Graydon, Druggist.

A MALE SUFRAGETTE GOES INSANE IN PRISON.
London, Feb. 12.—The mill-lane suffragettes became very much excited today on learning that Wm. Imlay, one of their adherents, who was sentenced to two months' imprisonment for being so amusing during the suffragette strike in December, had gone insane while in prison and had been sent to an asylum.

He followed the tactics of the suffragettes and refused to eat and the prison authorities fed him forcibly. His wife and daughter were allowed to visit him during the day.

The returning officer is required to declare elected the person receiving the highest number of votes.

First—The three candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

Second—The seven remaining candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

Third—The three candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

Fourth—The three candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

Fifth—The three candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

Sixth—The three candidates receiving the highest number of votes in the election of the school trustees for the year 1912.

CITY TO HAVE RIGHT TO GO INTO REAL ESTATE

This is Effect of Amendment to City Charter Approved by Legislative Committee.

TO EVADE BEING HELD UP IN BUYING OF PROPERTY

May Even Hold Property to Sell When Prices Have Advanced

New and important powers which practically give the city the right to go into the real estate business, were agreed to by the legislative committee of the legislature yesterday along with other amendments to the city charter. At the present time land required for improvements is bought by the aldermen on their own financial responsibility, and trusting to the satisfaction by the people of their purchases. This, they contended, is not right, and is the amended charter the council may by a by-law assented to by a majority of the burgesses, "contract debts for acquiring for any purpose whatsoever such lands as the council shall deem it expedient to acquire."

In the past, at such as it has become known that the council were seeking to acquire certain lands, the price has been put up and the city made to pay over a stiff sum. To prevent this the new title states that the city will not be required to state the land they propose to acquire or the purpose for which they propose to acquire the same, but a statement that the purpose of creating the debt is "for acquiring land for general unspecified purposes," shall be sufficient.

How Profits Will Be Used.
The wide effect of such general

powers may be gathered from the following sub-clauses:—
Any land or lands so acquired may be held, improved, leased, sold or otherwise disposed of (without the matter being referred to the burgesses) as the council shall from time to time see fit.
The proceeds of the sale of any lands so acquired may be used for acquiring other lands or invested in the same manner as sinking funds or be used for or loaned to any of the city's projects, subject upon such terms as the council may deem proper.

All income derived from said land or from the investment of the proceeds arising from the sale thereof may be appropriated by the council as it may see fit, raised by general rate for general municipal purposes.

City Might Have Saved \$100,000.

Mr. McInnis said the council ought to be able to acquire property without advertising where it was necessary for instance to cut across land for a new sewer. The railway had cut across several of their principal streets. In time it would be necessary to build sewers or drains, some other means of crossing and land on either side would have to be acquired. The council at present paid attention to all these crossings and plans of railways were already prepared in connection with First St., Nanton, Strathcona, etc. The council wanted to be able to acquire land adjoining on new streets which they opened up, and from the increased value of those lots the city would be able to recover the expense of paving and sewerage.

In answer to Mr. Cross Ald. McInnis said the cost of opening up Elizabeth street was \$100,000. If the council had had the powers they are now asking they would have saved probably \$100,000.

Mr. Cross thought the proposition was a good one.
Malcolm McKinnis, chairperson, said this was entirely a new principle; it gave the council power to go into the real estate business. Every little town would be asking for similar powers.

Ald. McInnis said the council had an option at the present time on a section of land. They were being on the corner of each 200 feet for 100 feet and expected to put the whole of the city block on the site. The council would then have to pay a right of way from that land to the city. As the council was not allowed by the terms of the charter the option on this section of land had been taken up by the aldermen personally.
"The city is already a leading corporation," said J. C. R. Brown, the city solicitor.

T. M. Tweed, Calgary, said no doubt Calgary would ask for similar rights and he thought they should have them.

J. A. McDougall, Edmonton, said the principle involved, on the ground that what was right for the individual and the private corporation should be permissible for the city, where the city stood in a very considerate position.

The amendments were agreed to by the committee.

REPORT THAT HALDANE'S MISSION WAS FAILURE

This Contributed to Weakness and Instability On the Berlin Financial Market—British Secretary of State Has Returned to London.

Berlin, Feb. 12.—Reports that the mission to Germany of Viscount Haldane, British secretary of state, had been a failure circulated on the Bourse today and contributed to the prevailing weakness and pessimism.
The rumor, however, was not justified. The situation will be cleared up only after Viscount Haldane has conferred with his colleagues in the British cabinet with whom rests the decision as to whether definite negotiations with Germany are to be begun.
The German foreign office today is apparently well satisfied concerning the prospects of the situation. Viscount Haldane returned to London in possession of an outline of the new German naval and military proposals notwithstanding the fact that they have not yet been communicated to the German Federal council.

Haldane Returns to London.
London, Feb. 12.—Viscount Haldane, the war secretary, was stoutly in declining to discuss the objects of his visit to Berlin. His return today was followed by conferences with Premier Asquith and Winston Churchill, first lord of the admiralty, and a proposed cabinet council, presumably to review the results of the visit. Public opinion is inclined to connect the bestowal of the unusual honor of the Garter knighthood on Sir Edward Grey with the Haldane mission.

Mayor Drouin Re-elected in Quebec.

Quebec, Feb. 12.—The nomination of candidates for municipal honors in Quebec took place this afternoon. Mayor Drouin was elected by acclamation. As a result of the recent amalgamation to the charter the City of Quebec will elect 22 aldermen instead of 14. At least 15 of the 22 will likely be elected by acclamation.

THE END OF THE ROAD—An hour by hand.

By hand. The abridgement of the end, and is now accomplished.

BATTLE OVER GRAIN LMS.

Gatens and Dunkhobers Have Serious Trouble at Haldane Lake. Bouthers, Feb. 12.—A regular battle took place on the streets of Haldane Lake, thirty miles northwest of Hathers, Saturday afternoon about 200 men taking part. The row was between a party of Gatens, assisted by some Frenchmen, on one side and a number of Dunkhobers. Clubs of all sizes, bottles and stones were used by combatants. The Dunkhobers and pieces of lumber, 12x15 feet long, throwing them at the opposing force. One Gatens was a long snake whip with terrible effect, using both lash and loaded cane. One Dunkhober has his skull broken. He was taken home, but it is not known whether he died or not.

The row started over the securing of grain cars. Two hundred cars are needed and only a few are brought to Haldane Lake. Every train arriving there is a big rump.

There is no railway agent and no other look, and the men who get to a car first have it. The trouble has been brewing for some time, and this battle is the result. Enemies of the Gatens are going to be prosecuted.

FIRST MESSAGE BY WIRE FROM DEVONIAN

The government telegraph line has been extended from Peace River Crossing to Dunvegan, a distance of seventy-five miles. The first message from Dunvegan by wire was received yesterday in Edmonton. The little town in the north country is thus brought into closer touch with the outside world, and the time is probably not far distant in the future when a railroad will be built there.

A Greater Mayor FOR Greater Edmonton

-- Why You Should Vote for Bryce J. Saunders for Mayor of Greater Edmonton --

Because

It is apparent that the City has not pace with the development of the Community. During the last administration, bickerings in the city government caused the municipality to get out of stride, and fall behind the general progress of the community at large by one whole year. This is Mayor Armstrong's admission.

Edmonton is entering upon the most important and trying year of its career, that of amalgamation. Details that are not properly worked out this year will have to be paid for in losses and painful readjustment in five years to come.

The present head of the administration has spent his time in making excuses for the various utilities. He has blamed the inefficiency of the lights, water, street railways, and everything else on Engineering Problems.

Edmonton owns more public utilities than any other city in North America. Some are losing money; none are giving satisfaction. They have not been satisfactory investments so far as stockholders in the municipal corporation.

Amalgamation is going to greatly increase those problems this year.

If there has been anything accomplished during the past administration, Mayor Armstrong claims all the credit; but for all of the glaring mistakes, failures, and inefficiency, he lays the entire blame on the commissioners, although he himself was chairman of the board.

At the end of a year's administration, Mayor Armstrong presents the citizens with a report of successive failures and deficits supplemented with a series of wordy excuses.

What Edmonton needs in the Mayor's chair is not a clever excuse maker, but a man whose executive ability, training and experience place him in the forefront of Canada's best and most successful men.

Boost For Saunders and a Greater Edmonton

Bryce J. Saunders has made his career by facing and solving problems similar to those which have baffled the head of the present administration.

HE BELIEVES IN DEEDS NOT EXCUSES.

What Edmonton most needs is co-operation in its government, and NOT EXCUSES AT THE END OF THE YEAR.

EXCUSES do not take the place of EFFICIENT SERVICE.

Mr. Saunders says: "I believe that the new commissioners are good, capable men. I want to HELP them. I have had a lifetime's experience in every branch of engineering, and have successfully dealt many times with the very problems which confront Edmonton today. I want to work WITH and HELP the commissioners."

However, I believe in letting every man who has enough faith in Edmonton to make his home here have a vote in the Government. The voting privilege should not be restricted to those who hold the land. Their interest is not necessarily greater in the city's welfare than that of the man who is making the land valuable by his very presence here.

"I want to encourage and help the workmen and new comers in every way possible."

WHAT EDMONTON WANTS IS PEOPLE and EDMONTON SHOULD TAKE CARE OF ALL HER PEOPLE.

Mayor Armstrong says that the reason there is a deficit in the city's utilities is that coal costs so much. Then, I say, LET THE CITY OWN ITS COAL SUPPLY.

"I believe in public ownership of utilities, and am not pledged to any private or corporation interests."

"If elected Mayor of Greater Edmonton, I will conduct the public's business as I would my own private business, and place its utilities on a PAYING BASIS, avoiding the blunders of the past administration."

Yours faithfully,

Bryce J. Saunders

TOOK MOVING PICTURES FROM HYDRO-AEROPLANE

Frank Coffey, Aviator, Carried Moving Picture Photographs Over Statue of Liberty and Over Incoming Ocean Liners in New York Harbor.

New York, Feb. 12.—Frank Coffey, the aviator, who was first last week to demonstrate the success of the hydro-aeroplane here, made a more daring flight from over the harbor today. He was accompanied by Arthur Duff, who carried a moving picture machine, and who filmed the first moving pictures taken from an aeroplane in full flight here. Waived rigidly in weather, Coffey and Duff started in near zero weather from the water near the battery. The sea was, however, thrashed with spectators. The flight was made at 2:20 p.m., and after skimming the water for three hundred yards, the hydro-aeroplane rose in the air above

the Statue of Liberty. From there the plane was made across the upper bay over the tunnel of incoming steamers and around the shores of Staten Island, coming back over the Statue of Liberty to a height of over a thousand feet. The last leg was a loop over the military quarters on Governor's Island.

The landing was made easily within a few yards of the starting point, after covering a distance estimated at fifteen miles in an hour and a half.

New Tariff on Grain for Export. Winnipeg, Feb. 12.—The new tariff of a 12-cent minimum on grain for export only is made effective on Canadian railways in the west tomorrow, the minimum being set to offset the Port William rate, which is charged on grain from western ports to Duluth, Minneapolis and St. Paul. No conditions are attached to the shipments over the C.P.R. but the rate is available only from Saskatchewan points. The C.T.P. has an embargo on grain for export from Port William, as it claims to have storage capacity for 2,500,000 bushels in its elevators.

YUAN SHI KAI CONGRATULATES PRESIDENT SEN

In Friendly Telegram Imperial
Premier Relinquishes China
to Republican Hands.

NANKING TO BE CAPITAL OF THE NEW REPUBLIC

Text of Edict of Abdication and
Conditions Agreed to by
the Republicans.

Nanking, Feb. 12.—President Sen Yat Sen has received a long telegram from Yuan Shi Kai, couched in the most friendly terms, acknowledging and honoring the new republic, the president and ministers of the Nan-king government. He relinquishes China into their hands, greeting them as brothers, expressing the hope that the future of the country will be prosperous and offering co-operation.

There is every reason to believe that Nanking will be the capital of the republic. Yang Shao Yi said today:

"The edict is perfectly clear and satisfactory and the abdication of the throne is absolute. I am now a plain citizen of China and have no connection with politics."

Kaijing Capitulates. Mukden, Feb. 12.—The city of Kaijing, province of Chi Li, has been occupied by the revolutionary troops. The revolutionists began the bombardment of the town on February 8, breaching twelve heavy guns into action. A portion of Kaijing was burned before it capitulated.

Feeling. Feb. 12.—After occupying the throne of China for nearly three centuries, the Manchua dynasty is now ended by the child emperor, Pu Yi, taking the throne. Three edicts were issued, the first proclaiming abdication; the second dealing with the government of the republic, and the third urging the maintenance of peace and harmony.

The conditions agreed upon by the imperial edict last night by the throne at noon today is as follows: "The emperor of China, Pu Yi, has respectfully received today the edicts from the hands of His Majesty, the Dowager Empress."

In consequence of the uprising of the republicans and to which the people of the province of China have responded, the emperor, in accordance with his duty, has decided to abdicate the throne and to leave the country to the republicans.

Months have elapsed and no settlement has been reached. The majority of the people are in favor of a republic. From the presence of the people's hearts the will of heaven is discernible. How could we oppose the desires of millions for the good of one family?

Therefore, we, the Dowager Empress and the Emperor, hereby vest the sovereignty of the Chinese empire in the people.

Let Yuan Shi Kai organize to the full the powers of the provisional republican government and confer with the republicans as to the methods of securing peace in the empire and forming a great republic with the union of Manchua, Chinese, Mongolia, Manchou and Tibetans.

"We, the Emperor Dowager and the Emperor, will thus be enabled to live in retirement free from responsibilities and cares and enjoying without interruption the nation's courteous treatment."

The publication of the edicts has given profound relief to everyone in Peking, both foreigners and Chinese. The arrangement is considered to be a peaceful compromise and it is believed that the terms will satisfy the republicans.

In consideration for abdication the republicans make the following stipulations to the emperor:

First.—The Emperor shall retain his title and shall be respected as a foreign monarch.

Second.—The Emperor shall receive an annual grant of 4,000,000 taels until the currency is reformed. After which he shall receive 1,000,000.

Third.—A temporary residence shall be provided in the forbidden city and later the imperial family shall reside in the summer palace, ten miles outside of Peking.

Fourth.—The Emperor may observe the sacrifices at his ancestral temple and temple, which shall be protected by republican soldiers.

Fifth.—The great tomb of the late Emperor Kwang Su, will be completed and the funeral ceremonies actually observed at the republicans expense.

Sixth.—The palace attendants may be retained but the number of eunuchs cannot be increased.

Seventh.—The Emperor's property will be protected by the republic.

Eighth.—The Imperial Guards will be disbanded and the army reorganized. The army board, the emperor will be elected by Congress, which will also name the premier, the latter selected by his cabinet subject to the approval of Congress. It will guarantee religious freedom and provide for conversion.

CHINESE REPUBLIC
SIMILAR TO THE U.S.
Nanking, Feb. 12.—The proposed republican constitution, a number of security articles. It follows the American model, except that the president and vice-president will be elected by Congress, which will also name the premier, the latter selected by his cabinet subject to the approval of Congress. It will guarantee religious freedom and provide for conversion.

KING PRESIDES AT MEETING OF PRIVY COUNCIL

Speech From Throne Delivered
Yesterday Was Approved
by His Majesty.

HOLDS LONG CONFERENCE WITH WINSTON CHURCHILL

Viscount Haldane Makes Report
of Success of His Mission
to Berlin.

London, Feb. 12.—King George presided this morning at a meeting of the privy council, the first that has been held since his return from India. The King approved of the speech from the throne, which is to be read at the opening of parliament today. Prior to the assembling of the council the King had an audience of an hour and a half with Winston Churchill, first lord of the admiralty. It is understood that Churchill gave an explanation to His Majesty of the notable changes which the admiralty had effected during the absence of the King from England and which His Majesty is reported not to have altogether approved.

After the dinner King George received Viscount Haldane, secretary of war, in order to hear a personal report on his visit to Berlin. The report is expected today that Viscount Haldane will shortly vacate the war office and be succeeded by Col. John Edward Seely, member of parliament for Iwerston division of Dorsetshire, and under secretary of war.

Chances made at the admiralty under the leadership of Winston Churchill, at an early date, will be the subject of question in the House of Commons. The session promises to be a momentous one on account of the three important measures, the first, the amendment of the Welsh church and manhood suffrage, all of which the government is prepared to carry through.

Any one of these measures, a few years ago, would have been considered a mere work for the whole session. An autumn session is secured and many all-night session sittings will be necessary in order to complete the legislative task before December, unless something occurs in the meantime, to bring about a general election. Unlikely are already forecasting.

CALGARY AFTER BRANCH OF PINCHER CREEK LINE

City Council Pass Resolution Asking
for Branch From Pinch Creek Line, to
be Guaranteed by Government.

Calgary, Feb. 12.—The city council held a special meeting tonight to consider the proposed Edmonton to Pinch Creek railway, which the provincial government have recently passed upon. This railway, which, coming south, goes to Cochrane and not back to Calgary.

A resolution will be forwarded to Premier Wilson, W. H. Cashman, M.P., H. Riley, M.P., and T. M. Tweedie, M.P. It is as follows:

"The council of the city of Calgary regrets that no provision has been made for connection with Calgary and hence to suggest that a branch line leaving the main line at a point eight or ten miles south of Cochrane and running in an easterly direction be constructed to connect with Calgary."

Kennanagh, arrested on suspicion. Hamilton, Feb. 12.—George Kennanagh, who was the night clerk in the employ of the Canadian Express Company on the evening of November 29, was arrested this morning, charged with carrying in connection with the \$100,000 robbery from the company's office that night.

AROUND THE CITY

A. Half Peterson and Co. public accountants have opened an office at 1014, Jackson Block, Jasper Street. A. Davis, under manager of the Daughters and Maids of England will be in the "Ladies' Hall," Hastings and Broadway, this evening, February 8 to 12.

The regular to the college students to be given by the young people of McLaughlin Methodist church has been postponed until Monday evening.

Members of the painters union requested to see at Connelly and McKim's parlors today, to accompany the removal of their late brother, H. H. Sharpe, ex-stratification. Meet at 1:45 p.m. prompt.

Hugh Brown of Barrie, on the G.T.P. east of Edmonton, died in the city yesterday. The body is being held at Connelly and McKim's until his brother's body is buried.

A meeting of the board of directors of the Edmonton Public and Joe Black Association was held last night. It was decided to recommend that the annual fair of the association be held December 14 to 20.

In the police court yesterday afternoon Fred Moran, charged with assault, was committed for trial. The case against Paul Culligan, a student, charged with attempted bribery, was adjourned until Thursday afternoon at two o'clock.

The inquest into the death of the late Harry Pharr, who was killed Monday by falling from the Victoria block, opened yesterday afternoon before Coroner Dr. Porin at Connelly and McKim's undertaking parlors. Evidence of others working on the building and eye witnesses of the accident was taken. The inquest was adjourned until Monday afternoon at two o'clock.

CITY HOSPITAL BOARD.
The amendments made to the city charter, the city council may establish a body to be known as the City Hospital Board for the administration and control of city hospitals. The board will consist of all city council members, two of whom shall be members of the hospital.

RETAIL TRADING PROTECTED.
As the request for a general retail Merchants Association a claim has been entered in the Edmonton city charter defining the jurisdiction and control of city hospitals. The board will consist of all city council members, two of whom shall be members of the hospital.

UP-RIVER DRIVE SCHEME.
"I have an outstanding purpose in desiring to be returned as alderman for the city of Edmonton for another term, and that is that I may complete the work which I have undertaken with the construction of a river drive along both sides of the Saskatchewan river up to Big Island, which is fourteen miles from the city."

This statement was made to the Bulletin by Ald. J. E. Landt, who has just returned from a business and pleasure trip to the city.

"During last year," said Mr. Landt, "in discussing the river drive scheme," "I was successful in securing the promise of the donation of land for the purpose of a drive from all the owners of property along the river between the city and Big Island. Already surveys of the roadway have been made, and I have no doubt that when it is constructed it will equal anything on the continent in point of construction. It will be a fine work."

Mr. Landt stated that in the east he found Edmonton the most talked of place in Canada. He declared that in the spring there will be an enormous amount of capital sent to this city for investment.

"Every place an Edmonton man goes in the east scores of people come out to inspect about this province and this city."

ANNUAL MEETING

The annual meeting of the Greater Edmonton Temperance and Moral Reform League will be held on Thursday evening next, February 15, at a lecture in the First Presbyterian church, corner Jasper and Third. There will be election of officers, treasurer's report and other important business. Free acceptance of moral reform is urged to be present.

LECTURE BY REV. J. E. HUGHSON.
The Young Liberal Club rooms in the McLaughlin Court were well filled last evening to listen to an interesting lecture by Rev. J. E. Hughson on "Scientific Socialism." The speaker was fully as successful as the previous efforts of this nature. An excellent musical program was given and an orchestra was in attendance.

Rev. Mr. Hughson traced the changes which have taken place in industrial conditions and showed how these are calling for social forms of legislation. The speaker prophesied an end to cut and dried schemes. The province must be an evolution as conditions demand.

He made the statement that the individual party that will face these problems and deal with them will be the party that victory will honor. He concluded by saying that the 20th century would witness wonderful advances along these lines and that Canada as a new country.

He concluded by saying that the 20th century would witness wonderful advances along these lines and that Canada as a new country. He concluded by saying that the 20th century would witness wonderful advances along these lines and that Canada as a new country.

A vote of thanks to the Rev. Mr. Hughson was unanimously passed by the meeting.

A DISTRESSING CASE.
A most pitiable case came to light recently at Edmonton where a mother and her three children were found in the house at 1014, Jackson Block, in the Victoria block, in the city of Edmonton. The mother was found in a state of extreme distress and the children were found in a state of extreme distress.

The mother was found in a state of extreme distress and the children were found in a state of extreme distress. The mother was found in a state of extreme distress and the children were found in a state of extreme distress.
